About MSU's Legislative Leadership Program and the Michigan Health Policy Issues Group

MSU's Legislative Leadership Program invites new members of Michigan's House of Representatives and Michigan Senate to engage in interactive sessions with content experts, including university faculty and practitioners, in the brief time between election and their first legislative sessions.

At its 1994 inception, LLP was designed to create a forum and the resources to help newly elected legislators meet the challenges of serving in a state with term limits. The program was meant to help legislators forge links to university policy resources.

Since that time, LLP has evolved into a broadened opportunity to gain insights into concepts that affect statewide constituencies, into evidence-based information on emerging issues and into the art and science of governing in divided times, such as under state House co-speakerships.

At the same time, IPPSR has evolved as a hub for policy expertise, information and outreach, a center for survey research training and excellence and an opportunity for training for those who seek leadership through elected office or public service. The program is built upon a series of specially designed events, including presenters, researchers and facilitated discussions. Sessions are focused on topics of compelling interest, from the state's revenue stream, to its expenditures, K-12 education, demographics and innovations.

IPPSR is proud that LLP has hosted a majority of newly elected legislators from each party and draws support from the Legislature's highest officers. The program continues to build on MSU's long-standing tradition of providing leadership training to state and county officials, community leaders, and aspiring public officials.

The LLP is consistent with the policy and research education efforts conducted both on and off campus in support of state legislators, their staffs and their communities. It resides at IPPSR as companion to IPPSR's Public Policy and Education, the Michigan Political Leadership Program, the State of the State Survey and Office for Survey Research. LLP draws on the resources and leadership of each of these outstanding programs.

Emerging Issues: Health Policy

During 2018, health policy was identified as an emerging issue within the framework of IPPSR's educational offerings through the Legislative Leadership Program.

Additional focus was brought to Michigan health policymaking with the support of the Michigan Health Endowment Fund and MSU's Institute for Health Policy.

The Institute for Public Policy and Social Research builds problem-solving relationships among policymakers and researchers and applies best practices to issues facing the State of Michigan. IPPSR's unique mission combines public education and training programs with research on issues of public policy, survey research services and the initiation of public needs among diverse audiences. Programs include a focus on policy education and political leadership training.

Located within the College of Human Medicine, the Michigan State University Institute for Health Policy serves a unique role facilitating and supporting collaborative relationships among CHM faculty and researchers throughout campus. These collaborative activities inform policymakers, state agencies and others with a goal of improving health care delivery in Michigan.

This educational outreach allows IPPSR to meet its long-established educational missions bridging policy and practical applications of personal leadership, governing and economic growth. They also are in step with

IPPSR's other enriching programs – including Public Policy Forums, Michigan Political Leadership Program, the Rosenthal Internship Awards, Office for Survey Research, State of the State Survey and the newest addition, the Michigan Policy Insiders Panel.

For more information about LLP and all other IPPSR programs, please contact Arnold Weinfeld, Interim Director, Institute for Public Policy and Social Research, 509 E. Circle Dr., Room 321, East Lansing, MI 48824. He can be reached by phone at (517) 355-6672 or by email at weinfeld8@msu.edu
