term11 Term Limits - 14 Years

The next questions focus on term limits and elections.

Currently, term limits in Michigan allow a total of six years of service in the House, and eight years in the Senate. The longest anyone can serve in the legislature is 14 years if they serve full terms in both the House and the Senate.

A proposal has been suggested to keep the limit at 14 years, but to allow an individual to divide the years between the House and Senate in any way. For example, an individual could serve all 14 years in the House, or all 14 years in the Senate, or divide the time between the two.

Would you say you strongly favor, somewhat favor, somewhat oppose, or strongly oppose this proposal?

term12 Repeal Lifetime Term Limits

Currently, Michigan's term limits are lifetime limits. Once an individual has served the maximum number of years in either the House or the Senate, he or she can never return to that chamber.

In some states, term limits restrict the number of consecutive years of service, but do not impose a lifetime limit. For example, a person who has served 14 consecutive years would have to leave the legislature for at least four years, but would then be allowed to run again.

A proposal has been suggested that Michigan change from lifetime term limits to limits on the number of consecutive years in office.

Would you say you strongly favor, somewhat favor, somewhat oppose, or strongly oppose this proposal?

elect1 Drawing of Legislative Districts

In Michigan, legislative districts are drawn by elected officials. This practice sometimes favors one political party over another, thus making elections less competitive.

A proposal has been suggested to have legislative districts drawn by an independent, non-partisan commission. The commission would be charged with drawing districts lines so that elections are as competitive as possible, and would not favor one political party over another.

Would you say you strongly favor, somewhat favor, somewhat oppose, or strongly oppose this proposal?

w10 Overweight Health Issue

Next, I have some questions about a health issue.

Some people believe that being overweight is a public health concern that should be addressed by society as a whole. Others believe that being overweight is a personal concern and is only the business of the individuals involved.
