q3a Decisions: Choose Company A or B

In this situation, assume your community has a parcel of land available for a new business. Two very similar computer design companies have asked to move their business to this land. Both companies have patented processes and guaranteed long-term contracts, but do not expect to grow. Both companies pay their employees about the same. Company A would come now with 10 employees. The other, Company B, would come in five years with 16 employees.

The land cannot accommodate both companies, so your community must choose between 10 new employees now or 16 new employees in five years. Neither you nor anyone in your family would work for either company.

If you had your choice of alternatives, which would you choose:

Company A, with 10 employees today; Company B, with 16 employees in five years; or neither, you do not want either company to move here.

%	N	VALUE	LABEL

meat1                    Meat: Eaten Game Meat

To better inform conservation policy, we are interested in how people use and value natural resources in Michigan. One of those resources is the meat obtained through hunting, also called game meat. The following questions are about the eating and sharing of game meat from Michigan.

Have you ever eaten game meat that came from hunting in Michigan, whether you were the hunter or were given the meat by a hunter? Do NOT include meat that was bought at a store or farm, or was eaten at a restaurant.

## nursing7                   Nursing: Sugar Drink

Now I am going to ask you a few questions about what the child drinks. In a typical week, how often does the child drink sports drinks, punch, or other fruit-flavored drinks like HI-C, lemonade, Kool-aid, or Sunny Delight? Do not include 100 percent pure fruit juices.

(Never, 1 to 3 times a week, 4 to 6 times a week, or every day.)

%	N	VALUE	LABEL
29.5	71	1	NEVER
43.0	104	2	1-3 TIMES/WEEK
