

Cybersecurity

Who is the Michigan Municipal Electric Association (MMEA)?

- Trade group for Michigan's 40 municipally owned electric utilities
- Approx. 2GW or 10% of load
- Diverse in customer size:
 - Daggett < 200
 - Lansing Board of Water & Light \approx 100,000
- Total over 300,000 customers
- Non-profit, community owned & operated
- Regulated locally, not MPSC

Public Power – United States

- Approximately 2,000 Public Power Entities in the United States
- Represent roughly 60% of Electric Utilities and 15% of the customers in United States
- Majority are Members of roughly 80 Power Supply consortiums (largely Joint Action)

PARTNERSHIP BENEFITS

MMEA's Municipal Members can receive an exponential risk reduction of their cybersecurity exposure by implementing these packaged services and tools offered by BitLyft. This offering is developed with existing MMEA Members in mind to provide maximum value and protection to our state's energy municipalities.

No RFP Burden for Municipalities

Reduced Costs to Members

Program Tailored to MMEA

Protection Through Our Central Threat Intelligence (CTI)

Reduces Exposure and Vulnerability to Members & MMEA

Enterprise-grade Tools and Team in One Deliverable Package

WHAT'S ALL INCLUDED

Here's a list of key cybersecurity pillars included in our offering that are typically all separate items to purchase, manage, implement, and update, but are one platform with BitLyft.

Threat Detection (Managed Security Information Event Management)

Threat Remediation (Security Operations Center)

Automated Remediation (Security Orchestrated Automated Responses)

Threat Intelligence (Central Threat Intelligence)

Single Sign On

Password Management

Endpoint Protection

Anti-Phishing

Compliance Mapping

Compliance Reporting

SCALABLE PRICING

Pricing is scalable by users and municipalities and comes with a tiered discount when reaching above 5 total MMEA Members who additionally sign up through this MMEA partnership. A fixed base fee will cover the infrastructure of a municipality with the price per user based on individual size and need.

MMEA Scenario (1 – 5 MMEA Members) – Annual Fee				
Annual Base	Example User #	Price / User / Month	Annual User Cost	Total
\$22,500	40	\$32	\$15,360	\$37,860

MMEA Scenario (6+ MMEA Members) – Annual Fee					
Base	Example User #	Price / User / Month	Annual User Cost	Total	Annual Savings
\$22,500	40	\$26	\$12,480	\$34,980	\$2,880

BitLyft

CYBERSECURITY

What else are we doing?

Does your municipality have **one million dollars**? That's the very low end of the **average** cost to remediate a cybersecurity attack.

MMEA is partnering with the federal **Cybersecurity & Infrastructure Security**

Agency (CISA) for a FREE virtual training on September 16th from 1:30pm – 3:00pm EST.

Fall Conference

Cybersecurity in Michigan

Hear from the State Police, CISA, and our own municipal members as they share their experiences involving cybercrime affecting Michigan's utilities, and hear recommendations about developing your utility's cyber defenses.

Participants: Kelley Goldblatt, CISA; D/Sgt. Dan Cook, MI State Police Cyber Command Center; Andy Boatright, Zeeland; Jeff Budd, Coldwater; Tom Carpenter, Marquette.
