The Education Policy Innovation Collaborative (EPIC) at Michigan State University is an independent, non-partisan research center that operates as the strategic research partner to the Michigan Department of Education (MDE) and works to provide evidence to education policymakers and stakeholders across Michigan.

EPIC is devoted to research with consequence and the idea that rigorous evidence can improve education policy and practice and, ultimately, students’ lives.

EPIC conducts original research using a variety of methods to produce new insights that decision-makers can use to create and implement policy.
SESSION OVERVIEW: KEY QUESTIONS

This Presentation Will Address Four Main Questions

1. What are the greatest concerns about the provision of K12 education during the pandemic?

2. What are states doing in relation to K12 education during the pandemic?

3. What did Michigan districts do last spring?

4. What did Michigan districts plan to do this fall?
Key Question #1:

What are the greatest concerns about the provision of K12 education during the pandemic?
LEARNING CONCERNS:
Policy and Research Conversations Have Surfaced Several Concerns With Pandemic Learning

• The pandemic is likely to widen disparities in K-12 education.

• Technology is a key educational resource for families learning from a distance. If students lack access to internet or electronic devices, distance learning can be restricted.

• All educators, but in particular teachers of students with disabilities, homeless students, and English Learners need guidance to support their students.

• As educators work to teach their students during the pandemic, it will be critical to also address students’ nutritional, socio-emotional, and mental health needs.

• Districts and schools will need more money, not less, to provide a high-quality K-12 education to students, and especially to students in traditionally underserved districts.
PROJECTED LEARNING LOSS: MARCH TO SEPTEMBER 2020

National Projections Using NWEA Data Suggest Substantial Learning Loss in Light of the Pandemic

MATHEMATICS PROJECTIONS

PROJECTED LEARNING LOSS: MARCH TO SEPTEMBER 2020

National Projections Using NWEA Data Suggest Substantial Learning Loss in Light of the Pandemic

Key Question #2:
What are states doing in relation to K12 education during the pandemic?
**DATA SOURCES**

**EPIC Used a Combination of Public and Collected Data**

**New Data Collected by EPIC Researchers**

- **State database of legislation**
  - EPIC and IPPSR created database of key state legislation related to K12 education during the pandemic

- **Continuity of Learning (COL) Plans**
  - EPIC coded and constructed a database of the content of all 813 COL plans submitted in spring 2020

- **Educator Surveys**
  - EPIC surveyed K-8 teachers & principals in May-June 2020

- **Extended Continuity of Learning (ECOL) Plans**
  - EPIC coded instructional modality and constructed a database of the content of all 831 ECOL plans submitted in August 2020

**District Characteristics from Outside Sources**

- **State Education Data**
  - Sector & Locale of District
  - Student demographic composition (percent economically disadvantaged, underrepresented minority)
  - Average student achievement (M-STEP ELA)

- **U.S. Census Data**
  - Percent of households with broadband internet subscriptions
STATE DIRECTIVES RELATED TO K12 EDUCATION IN FALL 2020

Most States Leave Decisions to Local Control

• Nearly all states (N=47) deferred to local districts on school reopening for fall 2020

• Few states have provided detailed guidance about school and district operations, e.g., required hours of instruction, graduation requirements, promotion and retention decisions, attendance, and grading.

• Some states have made cuts to their K-12 education budgets (notably Colorado, Georgia, Missouri, and Mississippi), but more states are using the CARES funds to either fill those cuts (i.e., Colorado) or supplement K-12 education budgets (i.e., Arizona, Florida).

For more information: https://ippsr.msu.edu/state-policies-address-covid-19-school-closure
MICHIGAN DIRECTIVES RELATED TO K12 EDUCATION IN FALL 2020

Most States Leave Decisions to Local Control

• Michigan’s Return to Learn Roadmap is one of the most comprehensive sets of guidance, largely providing suggestions not requirements.

• Michigan has provided legislation about attendance, instructional hours, and benchmark assessments
  - HB 5912 waived instructional hours for the 2020-2021 academic year and attendance requirements for funding have been waived if two-way interactions occur between each student and their teacher once a month.
  - HB 5913 required the administration of benchmark assessments within the first nine weeks and determined a new method of funding based on count days.

• Michigan’s K-12 education budget was level funded.

For more information: https://ippsr.msu.edu/state-policies-address-covid-19-school-closure
Key Question #3:

What did Michigan districts do last spring?
PRIMAR YT MODE OF INSTRUCTION

Most Districts Planned on Using Virtual Instruction Entirely or in Part to Educate Students in Spring 2020

Hybrid in spring 2020 was defined as a mix of online and hard copy instruction and instructional materials.
PRIMARY MODE OF INSTRUCTION

The Planned Use of Virtual Instruction Varied by Broadband Internet Access

*Hybrid* in spring 2020 was defined as a mix of *online* and *hard copy* instruction and instructional materials.
CHALLENGES FACED BY TEACHERS

Teachers Reported Substantial Challenges With Technology and Virtual Instruction When Transitioning to Remote Learning

- Consistent internet access for students
- Facilitating student participation in virtual class activities
- Lack of technology training for students
- Facilitating student-to-student interaction in virtual class setting
- Lack of available technology for students
- Lack of technology training for e-learning tools

Percent of Teachers Reporting to a 'Moderate Extent' or 'Great Extent'
RESOURCES TO HELP EDUCATORS PROVIDE REMOTE INSTRUCTION

Educators Wanted Virtual Resources That Provide Content, Training, Strategies, and Ready-Made Virtual Lessons

<table>
<thead>
<tr>
<th>Models of digital classroom practices</th>
<th>Virtual training resources on effective digital learning strategies</th>
<th>Digital platforms that provide regular content</th>
<th>Ready-made lessons to deliver through video, virtual conferencing</th>
<th>Better internet access</th>
<th>Access to a reliable home computer or suitable device</th>
</tr>
</thead>
</table>

Percent of Educators Reporting Resources Would be Helpful

- Did not respond
- Not at all
- To a small extent
- To a moderate extent
- To a great extent
DISTRICTS PROVIDE DIRECT INSTRUCTION

Districts’ Plans For Providing Student Instruction Suggest Less Direct Engagement Than Usual

9% of plans specified hours or lessons of direct instruction
  • Average time: **11.3 hours / week**
  • Average number: **5-6 lessons/week**

16% of plans specified expected time on independent learning and school work
  • Average time: **12.2 hours/week**

Younger students were provided with less instructional time/lessons.

Rural districts planned for fewer hours/lessons.
EDUCATORS’ CONCERNS ABOUT THE IMPACT OF COVID-19

Educators Expressed Deep Concern About the Ways in Which the Suspension of Face-to-Face Instruction Would Impact Students’ Learning and Well-Being
### CONCERNS WITH THE CONTINUATION OF LEARNING FOR SPECIAL POPULATIONS OF STUDENTS

<table>
<thead>
<tr>
<th><strong>TEACHERS’ Reported Challenges</strong></th>
<th><strong>DISTRICT Plans Reported</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td>64% reported challenges with continuing to provide supports and services to students with IEPs/504 plans</td>
<td>70% noted accommodations for students with IEPs/504 plans</td>
</tr>
<tr>
<td>39% reported challenges with continuing to provide supports and services to English Learners</td>
<td>26% discussed accommodations for English Learners</td>
</tr>
<tr>
<td>69% reported challenges with continuing to provide access to literacy intervention services</td>
<td>4% addressed accommodations for students with “reading deficiencies” or IRIPs</td>
</tr>
</tbody>
</table>
Key Question #4:

What did Michigan districts plan to do this fall?
DISTRICT RETURN TO LEARN PLANS
How Did Districts Plan to Offer Instruction in Fall 2020?

- **Fully In-Person**
  - Students attend in-person five days per week

- **Fully Remote/Online**
  - Students participate in remote or virtual instruction only

- **Hybrid**
  - Students attend in-person fewer than five days per week and participate in remote or virtual instruction on the remaining days

- **Fully In-Person Option**
  - Districts allow parents to choose between 100% in-person instruction and either hybrid or remote instruction

- **Hybrid Option**
  - Districts allow parents to choose between hybrid and fully remote instruction, but don’t offer a fully in-person option

MOVING FORWARD

Important lessons can be learned from Michigan’s experience and from other states around the country

• Equip all students with the necessary learning materials to allow them to fully engage in any kind of instructional modality.

• Continue to focus efforts on both instruction and student support services, particularly in lower-achieving, economically disadvantaged districts and for younger students.

• Build on current efforts to provide direct instruction and frequent contact between students and teachers.

• Expand access to high quality professional development and resources for educators.

• Keep equity of opportunity at the forefront when planning for high-quality instruction.

COLLEGE OF EDUCATION | MICHIGAN STATE UNIVERSITY
@Katharine Strunk | kstrunk@msu.edu | 236 Erickson Hall, 620 Farm Lane, East Lansing, MI 48823
EDUCATOR SURVEY SAMPLE

The survey sample was generally representative of Michigan teachers and principals

SAMPLE CHARACTERISTICS

8,881 K-8 educators from 752 (90%) Michigan school districts

- 16% of all eligible teachers
- 12% of all eligible principals

The survey sample is representative of MI educators; slightly higher proportions of educators who are...

- Female;
- Hired within the last 5 years;
- Elementary-certified; or
- Endorsed in ELA
CAVEATS

• We coded district’s initial Continuity of Learning plans. Not their final plans, nor the actual implementation of those plans.

• Districts learned and evolved as the semester unfolded.

• Survey responses are limited by the questions asked and who answered them and when.

• We coded district’s August 2020 Extended Continuity of Learning plans. These plans changed and are continuing to change.

• We will continue to work with MDE and districts to understand instruction and learning during the pandemic.
