Next, I am going to ask you a series of questions about public policy in Michigan.

In 2011, the Michigan legislature passed a law expanding the right of the state to appoint emergency financial managers for local governments and school districts, and expanding the powers of the managers. Voters will be able to approve or disapprove of this law on the November ballot.

Supporters say the law allows financially troubled cities to avoid bankruptcy and improve local government. Opponents say the law takes away local control and undermines democratic decision-making.
